

EZCast[®]

TRANSFORM YOUR LIFE WITH WIRELESS DISPLAYS

WHO IS EZCast?

Actions Microelectronics Co., Ltd., the owner of EZCast brand, was established in 2006 with capital of USD 10m, with trademarks registered and patents approved in 30+ countries.

From SoC chips, system solutions to cloud platforms integration, our expertise in vertically integrating technology and supply chains allows us to provide the complete wireless display solutions to enterprise presentation solutions, projectors, and home entertainment markets.

With more than 100 talented employees from Asia, North America and different regions around the world, our team strives for perfection in every aspect of the user experience, and making multimedia content viewing and information sharing experiences easier than ever before.

Our objective is to eliminate traditional display cables and further provide our customers with more convenient wireless display solutions.

To optimize and popularize wireless displays, EZCast's vision is to provide wireless display solutions with high image quality, small form factor, low latency, low power consumption and most importantly, affordable cost.

- 1. Form**
From two devices to two plugs
- 2. Image Quality**
From lossy to lossless adaptively
- 3. Latency**
From sub- 100ms to zero latency
- 4. Power**
From external power to powered by HDMI
- 5. Cost**
From half hundred USD to under 10

WE KNOW IT BEST AND DO IT WELL, FROM A TO Z.

We provide all you need in wireless display from A to Z.

EZCast is known for our expertise in the entire hardware production process and providing

EZCast integrates cloud services to drive greater customer experience

EZCast provides cloud and software solutions in addition to the physical products to expand the product features.

Ongoing OTA updates are available to complement a responsive customer support team for greater customer experience and satisfaction.

1. SoC Chipsets: EZCast develops a series of powerful and highly integrated chipsets to make low latency and high quality wireless display possible and affordable.
2. Wireless display modules: EZCast builds up hardware modules based on in-house chipset to facilitating wireless display integration for display devices.
3. OEM/ODM services: EZCast helps brand customers to establish wireless display products for consumer, accessory, educational, commercial and projector applications.

4. Software and cloud services: EZCast provides cloud and software solutions in addition to the physical products to expand the product features.

The supporting software and cloud services includes APP development, OTA and technology supporting.

10 MILLION WORLDWIDE USER BASE MAKES EZCAST GROWS SIGNIFICANTLY

EZCast has more than 10M users around the world who use the complete EZCast solution for work and leisure applications.

WE KNOW THE WORLD AS WELL AS THE WORLD KNOWS US EZCast works closely with many well-known partners around the world

EZCast is trusted by a huge network of global strategic partners, many of which are major high tech brands in consumer and business segments.

FOR ENTERPRISES

QuattroPod

Powered by EZCast Pro

A simple click, to cast secured wireless presentations

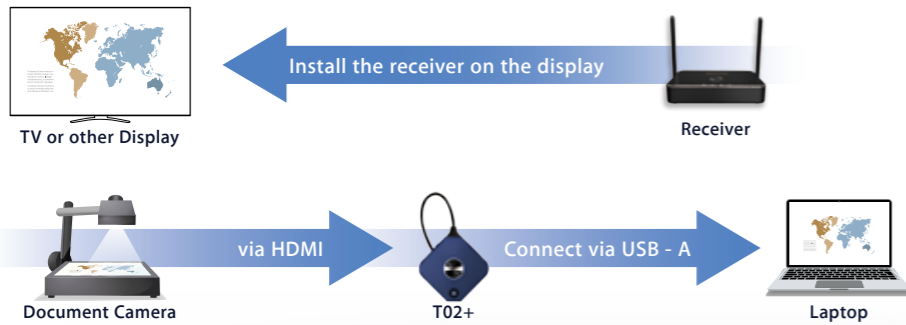

QuattroPod T02 Plus

SHARE MATERIALS FROM YOUR DOCUMENT CAMERA

Connection

Features

- Hybrid Working Environment**
Engage on-site and remote participants. Display locally and share the content via UC solutions
- UC Platforms Friendly**
Supports mainstream UC platforms (Zoom/Google Meet/Microsoft Teams)
- App-Free**
Easy to use. No app required.
- Share with Document Camera**
Share your complementary materials through HDMI document cameras
- QuattroPod Compatibility**
Compatible with previous QuattroPod receivers
- Host control**
Keep your classroom in order. Host control accepts/denies new display requests.

Technical specifications

CPU	1Ghz AM8270 CPU
Max. Input Resolution	1920x1080@60Hz
Input & Output	HDMI in, USB type A (male/female)
Wi-Fi	802.11ac 1T1R, max. bandwidth 433Mbps (5Ghz)
Power	DC 5V, 0.9A

System Requirements

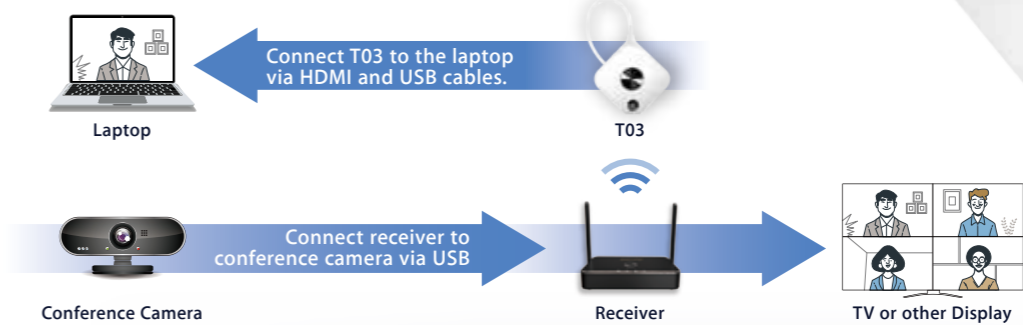

PC	Any PC or laptop with HDMI output
USB mirror with Tablet /SmartPhone	iOS 10 above and Android 5.0 above
Note	Android devices must turn on USB debugging (ADB) mode in advance

QuattroPod T03

ENGAGE ON-SITE AND REMOTE PARTICIPANTS USING CONFERENCE CAMERA

Connection

Features

- Hybrid Working Environment**
Participants can see the image from the conference camera and feel like they're in the same room.
- UC Platforms Friendly**
Supports mainstream conferencing platforms (Zoom/Google Meet/Microsoft Teams).
- App-Free**
Easy to use. No need to download any APP.
- Share with Conference Camera**
Perfectly compatible with USB conference cameras, increasing the interactivity of conferences.
- QuattroPod Compatibility**
Compatible with previous QuattroPod receivers.
- Wireless UVC**
USB Video Class (UVC) allows you to share your content via UC while displayed locally

workplaces

QuattroPod BYOM

BUILT FOR TRUE HYBRID COWORKING

Bring true hybrid coworking to your organization.
With QuattroPod BYOM, distance between us
no longer matters

QuattroPod was awarded Best Choice Award during Computex 2019

QuattroPod was the winner for the Enterprise Application & Service category.

Judges have praised QuattroPod's convenient setup, where any smart device can plug into a QuattroPod transmitter to cast wireless presentations with a click.

Wireless presentation as easy as plug and play

Share screens from your favorite smart device with plug and play. No app required.

4-to-1 split-screen display to compare charts and graphs

Display up to 4 sources at the same time for better clarity in real-time information sharing. So you can see the full set of data to support decision making.

Share your screen to multiple monitors

The Multicast function enables user to deliver screen contents from one device to several monitors at the same time.

Host control to administer the pace of meetings

Control your meetings with QuattroPod to ensure staying on topic and making informed decision.

Touch back control for more flexibility in presentations

Make the touch screen command your laptop, wirelessly. So you have complete control over your presentation even on stage.

Multiple devices support for BYOD workplaces

Simply connect your devices to our transmitter to enjoy a quick, stable and high quality WiFi display environment.

QuattroPod USB

NEXT GENERATION USB SINGLE CABLE TRANSMITTER

PLUG and CAST.

QuattroPod USB is an intuitive cross-platform wireless casting solution. We have slimmed down the transmitter to one single USB interface. It's time to ditch the cables for a hassle-free experience.

SINGLE CABLE SOLUTION

"Less is more"
Replace HDMI, DisplayPort, and USB with the next generation QuattroPod USB transmitter.

Instant Plug and Cast
Instant App-free casting

Touchback control
Control your device wirelessly with touch panel

Cross platform compatibility
Compatible with major OS systems

Mobile friendly support
Support with mainstream mobile devices

QuattroPod T02+

Unleash the power of your HDMI camera

Casting what's scanned on the HDMI document camera to the local display while sharing the same content via UC platforms.

QuattroPod T03

Bringing you closer, no matter the distance

Mirroring on-site participants and sharing the images with remote users via UC platforms, creating a sense of proximity between local and on-site participants.

QuattroPod Mini

A more portable way to share ideas

A smaller transmitter streamlined for portability, with an optional battery pack to let you present wirelessly from any corner of the room.

QuattroPod USB

A single USB cable to rule all USB devices

A transmitter with only one USB cable to support most USB products. Never worry about HDMI, DP and other connectors anymore.

BRAND YOUR WIRELESS PRESENTATION PRODUCTS BY "EZCAST PRO PARTNER PROGRAM"

Build Edge-Cutting Products with Competitive Prices.

EZCAST PRO PARTNER PROGRAM

The Powered by EZCast Pro program is comprised of EZCast Pro cutting-edge wireless presentation technology, enabling partners to leverage EZCast Pro products and create its product line.

As a system integration provider, have you been dreaming of building your wireless presentation products? Now is your chance to join us!

Start your wireless presentation business and build products with EZCast Pro technology, outperforming other competitors at less than one-tenth cost.

Want to know more? Contact us now.

FOR EDUCATION

EZCast Pro

Intuitive wireless presentation solution with interactive note-taking tools

Supports devices of all OS

Supports 1-to-many screens

Real-time note-taking

CONDUCT CLASSES AND CONFERENCES USING COMPLETE EZCAST PRO SOLUTION FOR MAXIMUM EFFICIENCY AND EFFECTIVENESS

Teachers and speakers can conduct lectures using their favorite mobile phone or laptop. The companion EZCast Pro app has many features to improve student engagement.

Teachers can use EZBoard to share ideas clearly to students and give them quizzes on-the-fly. Students and audiences can take real-time notes with EZNote for better memory recall.

Conduct lessons from any smart device

Supports wireless presentations from any smartphone and laptop, so you can make presentation using your favorite devices effortlessly.

Real-time note-taking tools for greater effectiveness

Use the EZNote feature of EZCast Pro app to let students and audiences take real-time notes for better learning experience.

MULTI-SCREEN BROADCASTING WITH PROCAST APP FOR LARGE LECTURE THEATERS

ProCast app is a convenient way to wirelessly broadcast laptop content to multiple receivers in real-time.

It is a great way to setup multiple screens to cater a large lecture venue without adding complexity to the equipment.

Display media in split-screens for better storytelling

Display up to 4 sources at the same time to present stories and explanations better.

Full-featured productivity app

EZCast Pro app is designed to improve engagement in lectures and meetings, including note-taking features built for improving productivity and follow up.

EZCast Pro BOX II

Multi-screen receiver with both 5GHz Wi-Fi and LAN support

Supports multi-screen setup for larger speaking venues using both LAN and 5GHz Wi-Fi for more stable presentation experience.

EZCast Pro II

Next generation wireless presentations

Faster 5G Wi-Fi support with 4K capability to deliver faster and more vivid presentations.

Supports multi-screen setup for larger speaking venues.

INTUITIVE CENTRAL MANAGEMENT
SYSTEMS FOR EZCAST PRO/QUATTROPOD
AND EZCAST PROAV

Central Management System for EZCast Pro/QuattroPod

REMOTELY MANAGE YOUR DAY-TO-DAY OPERATIONS

EZCast CMS for EZCast Pro / QuattroPod has been developed for IT staff to centralize and remotely manage daily operations on a large scale, featuring mass deployment and configuration, emergency alert system, automation of IT operations, and digital signage management.

Mass Deployment and Configuration

Easily deploy transmitters and receivers on your computer and group devices according to your needs

Automation of IT Operations

updating firmware, rebooting device, or collecting logs, everything has become automatic

Emergency Alert System

When an emergency occurs, notify your colleagues immediately! This information will be given priority over other notifications

Digital Signage Management

Set up the wireless digital signage system with ease. Using CMS, we can turn your laptop into a digital signage server and control center

Central Management System for ProAV

REMOTELY CONTROL ALL THE DEVICES WITH iKVM FUNCTION

EZCast CMS for ProAV is designed to manage all the EZCast ProAV devices in bulk, featuring mass monitoring, smart channel switching, integrated iKVM, and on-screen message broadcast. The application is intended to provide a better user experience and improved business efficiency for users who are in need of long-distance display.

Mass Monitoring

IT staff can easily monitor all the EZCast ProAV devices at one glance

Integrated iKVM

iKVM enables the user to view the display of the source and control the keyboard and mouse in replace of the source devices

Smart Channel Switching

Easily switch the source and display what you want on the decoders

On-screen Message Broadcast

Make your staff informed immediately as soon as there is something new

4K HDR video decoder

Supports voice control

Supports devices of all OS

EZCast FOR HOME ENTERTAINMENT

Enrich your home entertainment with smart media streaming receivers

Compact Mate

Wireless Display Transmitter + Receiver

The most compact and simplest solution for screen mirroring and screen extension.

Compact Mate1

Compact Mate2

Compact Mate3

Compact Mate4

Make HDMI Wireless

Get rid of cables and limitations. Mirror your screen wirelessly with the HDMI transmitter and receiver kits.

Plug and Play

Simply plug in and you are all ready. Enjoy immediate connection without any other setup.

Compact and Neat

The transmitter and receiver look exactly like a cable, making it portable and easy to store.

Simple Setup

No app installation and Wi-Fi network needed. Fast and straightforward.

Mirror or Extend Mode

Mirror videos to a TV or extend works to another screen. Multitask wirelessly like a pro.

Impressive Compatibility

Watch your favorite videos, games or presentations from all popular devices.

Plug and play in seconds without any app installation or mode setting.

Support popular protocols

Support Miracast, Airplay, DLNA, Google Cast.

Maximize home entertainment

Enjoy fantastic videos on HDTV from whichever apps you like and whichever device you use.

Mirroring or extension It's up to you!

Mirror movies onto a bigger screen or extend works to another screen to multitask in the home office.

EZCast Ultra

4K HDR STREAMING SUPPORT
FOR VIVID ENTERTAINMENT EXPERIENCE

Enjoy 4K video streaming without latency and maintain vivid images across a wider dynamic range.

Play UHD videos at 60 frames per second and see more detail in whiter and darker regions, so your eyes can enjoy a more immersive experience.

Bluetooth 4.2 for better connections

Dual band wireless with high performance

Autoplay your favorite playlists

Innovation is in the details

It provides 4K HD/HDR ultimate viewing experience and 4K/60fps smoother video displays.

Multi-OS Support

Support Windows, macOS, Android and iOS.

Get more done with just your voice

Use smart speakers and AI assistants on your smartphone to command EZCast to search and play your favorite videos.

Go beyond streaming with DLNA

CONTROL YOUR MEDIA EXPERIENCE HANDS-FREE WITH VOICE CONTROL

Use AI assistants on your smart devices to discover videos with voice search, then play, pause, or rewind videos on voice command.

EZCast is compatible with all the popular smart speakers, like Google Home, Amazon Alexa, so you have more ways to enjoy your smart home entertainment.

 Alexa, play music video

Embracing all types share media with your friends no matter what OS they use?

EZCast solution is compatible with all popular OS and screen mirroring standards, including Miracast and iOS Screen Mirroring. No matter what kind of smartphones your friends use, you can easily broadcast the media entertainment to your TV.

Advanced dual band Wi-Fi support for smoother streaming

Supports both 2.4G/5G Wi-Fi networks to make wireless display a smooth and stress-free experience.

EZCast Ultra

True 4K HDR wireless display receiver

EZCast Ultra is designed for the most dynamic and immersive home entertainment experiences. Stream 4K HDR videos from internet or from your mobile devices to UHD TV in 60 FPS with no lag.

EZCast 2

The most popular 5GHz wireless display receiver

The classic wireless display receiver that seamlessly streams Full HD content across 5GHz Wi-Fi.

EZCast Compact

Next generation portable receiver

Clean design that hides all the external Wi-Fi modules in a tiny package. Just plug in the TV and power adapter to start casting wirelessly.

FOR PORTABLE ENTERTAINMENT

EZCast Beam

Project your smartphone
contents anytime, anywhere
Stop phubbing alone, enjoy the sharing contents together

EZCast Beam J4

YOUR TOP CAMPING COMPANION

EZCast Beam J4

Meets your needs in any scenarios

Patio party

Camping

Campervan

Fits in any bag or suitcase
Its palm-size and only 384g weight make it fit in any outdoor adventure.

WiFi & cable connections
You can not only wireless connect your smartphone/tablet to J4 but also wired connect it via the HDMI/USB cable.

Project images from any angle
With its auto vertical keystone and manual 2D keystone, J4 makes you easy to project square images from any angle in any environment.

Maximize your mobile entertainment
Automatically display vertical projection with full-screen, allows you to play mobile apps like TikTok and mobile games comfortably.

2.4GHz / 5GHz WiFi Support
Dual WiFi connections provide you with more smooth streaming and an exciting gaming experience.

Lasting 5 hours of playtime
The built-in 9000 mAh battery allows you to watch a long movie or a few episodes on 1 charge in eco mode.

ACCESSORIES

EZCast Accessories

Keep your laptops and projectors connected and transform them into EZCast receivers

MU-MIMO support

Hotspot mode

Dual band 2.4G/5G Wi-Fi support

HOTSPOT AND STATION MODES MAKE SURE ALL YOUR DEVICES STAY CONNECTED

Use EZCast Wi-Fi adapters to ensure fast Wi-Fi network connection on your laptops and PCs. The adapters can also expand your PC or laptop's internet connection into a Wi-Fi hotspot to keep all your surrounding devices connected.

High performance and better connections

Supports dual band 2.4G/5G Wi-Fi network to enjoy the freedom of internet at greater speeds.

Supports both Windows and macOS devices

Supports multiple OS, so no matter what laptop you use, you will never be without internet.

Boosted network speed with MU-MIMO

MU-MIMO was created to support environments where multiple users are trying to access a wireless network at the same time. With MU-MIMO technology, the EZCast USB Wi-Fi adapters can provide faster network speeds to multiple devices.
